

Chelmsford Rambling Club

Founded 1934

(Affiliated to The Ramblers Association)

On the walk

Encourage a shared responsibility for physical distancing. Consider using face coverings where a path is narrow or crowded and distancing is difficult.

Allow other people to pass you at a place where physical distancing is possible. You may have to wait before a pinch point or stile until others have passed, as it is likely that yours will be the larger group.

Remind your group not to bunch up at stiles and gates and to sanitise their hands after passing through them.

It may not be possible for physical distancing i.e. a guest may require assistance over a stile. Take mitigating action such as wearing a face covering.

Each walker must bring hand sanitiser and a face mask.
